CAREER OBJECTIVES

As an beginner web developer. I Passionate and motivated beginner web developer with a strong foundation in HTML, CSS, React and JavaScript, eager to contribute to creating impactful and user-friendly websites. With a solid foundation in HTML, CSS, React and JavaScript, I am constantly seeking opportunities to expand my expertise and stay up to date with the latest web development trends.

SKILLS

- **Comfortable:** React JS, JavaScript, Html5, CSS3, Tailwind CSS, DaisyUI, Bootstrap, Firebase Authentication, React Router.
- **Familiar:** MongoDB, Node JS, Express JS
- **Tools:** VS Code, Netlify, Figma, Github, React Dev Tools, XAMPP.

PROJECTS

FOOD NETWORK

[Live Link](#) || [Client Site Code](#) || [Server Site code](#)

FEATURES:

- On this site, I use Firebase authentication for user login and sign-up.
- I used React Router DOM to make it a single-page application and Private Route.
- At this project I used Bootstrap as a CSS framework and also used react Toastify for more than attractive UI .

KID'S ZONE

[Live Link](#) || [Client Site Code](#) || [Server Site code](#)

FEATURES:

- On this site, I use Firebase authentication for user login and sign-up.
- I used React Router DOM to make it a single-page application and Private Route.
- At this project I used Tailwind as a CSS framework and also used react Sweetalert for more than attractive UI . I used MongoDB and Express JS for all the CRUD operations.

TEACHING CORNER
